A BIG PART OF THE problem of more than half the best trout faced by Michigan educators is the trouble they have keeping up with the school population in-

While the spokesmen for teachers are far from reticent when it comes to telling the Legislature and the public about the burdens they carry, the cold hard facts turned up by a recent Department of Public Instruction study are none the less impressive.

ANYBODY WITH A SHOVEL, and a yen for gold would do well to head for South Dakota along about Aug. 26-27. Keeping our city clean, beautiful, healthful and safe is not only good citizenship but good business.

It maintains and even improves real estate values; prevents fires and lowers insurance rates; cuts down on sick time lost; improves employee morale; improves vacant lots, develops community spirit, civic responsihility and respect for property.

It also increases business from those who prefer to do business with a clean, attractive well organized community. It also encourages business to locate in such an advantageous area.

munity. It also encourages business to locate in such an advantageous area.

We heard of one town out West that lost out on the location of an important plant, even though it had some very practical assets, simply because it looked so messy and run-down. Aside from esthetic considerations, the company just did not feel it could get the kind of cooperation from the community or its people that it deemed necessary with such patent evidence of slovenly habits.

The-full and wholehearted support by every single itizen of our town for the Clean Up—Paint Up—Fix peringing, we think, cannot fail to pay whacking lividends for all.

Another income tax time has come and gone. And millions of us feel a sad flatness in the pocketbook.

Once the income tax was a rich man's tax — people of small and moderate earnings paid little or nothing. But now, as Citizens Public Expenditure Survey observes, "the long arm of the Internal Revenue Service reaches out to nearly everybody."

TIPS ON SAFE

LADDER USE

You'll probably be using a ladder during the current Clean Up—Paint Up—Fix Up dampaign, and here are some tips on how to avoid falls.

If it's a step ladder you're using, be sure that it is fully opened and locked before you mount it. The bottoms of all ladders should be on a solid, even footing, to prevent the ladder from topling. Finally, never stand on the very top step: you can lose your balance. If the ladder isn't tall enough, buy or horrow a longer one.

Rung-type ladders should be

HOW MUCH IS YOUR USED-CAR WORTH?

pends on two things: the condition of the car and the dealer to whom it is traded. ANY dealer will offer more for a low-mileage used car in immaculate condition than a worn-out model of the same

make and year. He is not a philanthropist. He knows the car will bring more on his used car_lot-There's a difference though A premium quality used car is worth more to some dealers than others. It is worth more to a dealer who deals primarily in top quality used cars. He

has a premium market with people who know his reputation for superior used cars and are prepared to pay a little more for quality. He is selling quality — not price. Though in the end, the value he delivers for the money is always ers for the money is always

In contrast, there is a dealer whose main sales appeal is low price. This dealer actually PRE FERS a high-mileage roug condition model of reasonab appearance he can buy at an extra-low dollar figure. He prefers it because he can doctor it cheaply to run well for a limited time, then sell it at "bargain" price for a good profit.

used car you are thinking of trading, we earnestly suggest that you let us quote you a difference figure.

Fuzzy Goodwin may hold a half-dozen important positions around town—chairman of the school board included—but he's still the same modest fel-

low that I grew up with. At the last PTA meeting, Fuzzy made a point of getting together with some new teachers. One of them, a lady with some strong ideas about edu-

others had gone to the right college-hers. "Well, Miss, that isn't so bad," Fuzzy told her. "One of our board members didn't e-

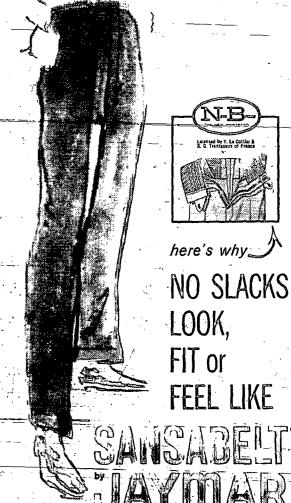

cation claimed that none of the

go to high school, let alone college." "No! Who?" she said.

From where I sit, some of uswant people to be carbon copies of ourselves. But that just isn't the American way, Our heritage of freedom implies the right to be different, even in little things—like your choice of tea or coffee and my preference of a glass of beer. I say "be yourself" and no "studying up" to be like each other.

THE SHAPE OF A MIRACLE. And the heart pump is no less than that. Because of it, hope does not fail when the heart does. The world of modern medicine is full of such miracles. Isotopes that track disease. Vaccines that prevent it. Drugs that cure it. Isn't it a wonderful feeling to know that you can afford the best that modern medicine has to offer? This is the feeling Blue Cross-Blue Shield protection gives. Half of the people in Michigan have it. Perhaps you are among them. If not, shouldn't you look into it? You'll find there's no substitute for your Blue Cross-Blue Shield membarship card. You get so much for what you put into it.
